

# Join the Coventry Energy Initiative

Hundreds of Coventry businesses are currently benefiting from our service and save an average of 17% on their energy costs\*

**Protect your business from rising energy prices  
and get access to lower wholesale rates**

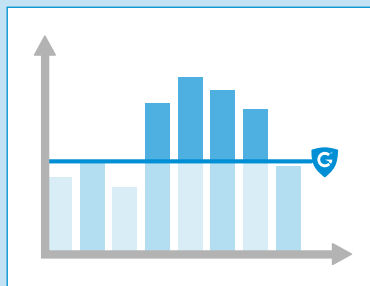

As a member of the **Coventry Energy Initiative** you can fix your business' energy tariff at wholesale rates as far ahead as April 2020. You also get extra services – like bill validation and energy management advice – that will help you reduce your overheads.

- **Quarterly price review** – we review your price and advise you on when energy is at its cheapest every quarter
- **Purchasing power** – get access to highly-competitive wholesale prices, thanks to our group buying power
- **Budget certainty** – secure your price. If the market rises, your exclusive price is protected, regardless of how long is left on your contract
- **Greater opportunity** – take advantage of market movements. If the market dips, you can unfix your secured price and blend with lower market rates
- **Discounted green energy** – avoid having to pay the Climate Change Levy (CCL) premium by opting for green/renewable energy at a discount of 15%
- **Flexible agreements** – we avoid take or pay clauses, meaning you aren't penalised for reducing or over-using your energy consumption

## BONUS SERVICES

- **Bill validation** – we conduct a retrospective energy bill analysis as far back as 6 years to see if you have been overcharged by your supplier
- **Free smart meter** – you only pay for what you use because we can have a free automated meter reading (AMR) device fitted to your meter. This gives you exact, daily reads, which means your invoices will accurately reflect your usage
- **Energy Manager software** – the automated reading device links to our Energy Manager software, which means we can advise on ways to reduce your consumption and carbon footprint
- **Unlock exclusive tariffs** – by joining the Coventry Energy Initiative you and your employees will have access to our exclusive domestic tariff

The Coventry Energy Initiative is delivered by GET Solutions, a Coventry-based energy consultancy.
